Feed Oil Meals For Protein Supplemental

COLLEGE STATION —As winter approaches and with range grasses in short supply in many areas, supplemental feeding continues of prime importance with livestock producers.

One of the best ways producers can beat the cost-price squeeze is to continue feeding oil meal products as a source of supplemental protein, says Uel D. Thompson, extension animal husbandman. Oil meal products are the most economical and dependable supply, he says.

Latest Texas research indicates steamed bone meal and common salt are still the best supplementary minerals. Leafy legume hay furnishes an abundance of vitamin A. And, roughages, if not available from field crops, must be supplied from straw stacks and baled hay.

Beef producers need a knowledge of livestock feeding, Thompson says. Producers are unaware that many feed dollars are being wasted by overfeeding. It's like driving a car with the carburetor set too rich, he adds. Efficiency of operation is lost.

Livestock feeding recommendations based on the latest research are contained in B-217, Emergency feeding of livestock, and is available from county agricultural agents offices.

Two Changes Are Made In Waterfowl Rules

AUSTIN — Only two changes from last year mark the new waterfowl regulations, according to the Executive Secretary of the Game and Fish Commission.

The daily shooting period was extended until sunset and baiting was forbidden altogether.

Here are the major rules for shooting ducks and geese:

Season—From noon on November 6, through January 4.

Hours—from one half hour before sunup to sunset.

Bag limit (Ducks)—Five per day or ten in possession.

Bag limit (Geese)—Five per day or five in possession, including in such limit not more than either two Canada geese (or its subspecies, Hutchins or lesser Canada) or two white-fronted geese, or one of each.

Weapons—Use of rifles to kill waterfowl is forbidden; guns must not be larger than ten gauge; all repeaters or automatics must be plugged to a limit of three shell capacity.

Boats—Ducks or geese may be taken from outboard motor boat provided motor is removed from boat and placed inside the boat, or boat is secured to a shooting blind.

Federal duck stamp costing \$2 is required.

Servicemen

Private MARION A. JUNGMAN son of Mr. and Mrs. Elmer Jungman of L a C o s t e and Private ELTON J. LUTZ, son of Mr. and Mrs. Erwin Lutz, of Utopia, Texas, recently began 16 weeks of basic training in the Antiaircraft Artillery Replacement Training Center, Fort Bliss, Texas.

They will spend the first eight weeks training on fundamental Army subjects like Infantry drill, and machine gun and bazooka marksmanship. This first phase of the training is climaxed with a one-week maneuver in the field.

Their second eight weeks will see them firing light and medium antiaircraft artillery weapons at low-flying and high altitude aerial targets on the million and a half acre Fort Bliss ranges.

The Servicemen will graduate at a formal parade and retreat ceremony. He will then be eligible for assignment in a permanent antiaircraft artillery unit.

The USS New Jersey returned to Long Beach, Calif., from Korea Friday, October 30th, completing six months of combat and training duty.

Serving aboard the battleship is EDWARD J. BRUCKS, interior communications electrician fireman, USN, son of Mr. and Mrs. Joe W. Brucks of Hondo.

The New Jersey departed Saturday 31st to return to her home port of Norfolk, Va., via the Panama Canal. She had arrived in Yokosuka, Japan on Easter Sunday, April 5th and began combat operations on the 12th.

While in the Far East, the battleship was flagship of Vice Admiral J. J. Clark, USN, Commander Seventh Fleet. She was host to President and Madame Syngman Rhee during her visits to the harbors at Pusan in April and at Inchon, Korea in May.

The battleship celebrated her 10th anniversary while at Inchon. On Monday July 27th, Truce Day, the ship was at sea with fast carrier Task Force 77 and the following day was moored to the buoy at Sasebo, Japan.

In August the ship visited Hong Kong, British Crown Colony, and Open House for general visiting was held.

PROCLAMATION

Whereas, National Future Homemakers of America Week will be celebrated throughout the nation beginning on November 1 and ending November 8; and

Whereas, the motto of the Future Homemakers, "Toward New Horizons," is an infinite challenge and expresses the purposes of their organization, to learn to live better today in order that their lives and those of their families may be better tomorrow; and

Whereas, the organization of the Future Homemakers of America is contributing much to promote a growing appreciation of the joys and satisfactions of homemaking;

And whereas the Hondo Chapter of the Future Homemakers of America is an affiliate of the National Homemakers of America is contributing much to the improvement of the future homes of our community,

Now, therefore, I, O. A. Fly, Mayor of the City of Hondo do hereby proclaim the week beginning November 1 and ending on November 8, 1953 as a Future Homemakers of America Week in Hondo, and urge our leaders of Youth and Home Improvement to join in this observance.

In witness whereof I have hereunto set my hand and caused the seal of the City of Hondo to be affixed this 2nd day of November, 1953.

O. A. FLY, Mayor
City of Hondo, Texas.

Wildcats Lost To Sabinal 12-6

By Malcom Reeves

The Castroville Wildcats lost to the Sabinal Yellowjackets 12-6, here Friday night in a 32B Conference game. The first Yellow-jacket touchdown came when James Ballew raced around end for 25 yards early in the first period. Bouncing back after the half-time, the Wildcats took the offensive and Nelson Bippert broke loose on a 15 yard sprint that tied up the ball game 6-6.

Zeno Stout plowed over center in the fourth quarter for another Yellowjacket touchdown, winning the ball game 12-6.

The Wildcats go to Northside November 6th for a non-conference game.

NEWS FROM NATALIA

By E. H. Whittington
NATALIA—3.15 inches of rain fell here during the past month. The pastures are looking good; the oats are growing fast and the cattle are finding plenty of grazing. Milo and hegar are making a pretty good fall crop and black-eyed peas are almost ready for harvest. The pecan crop is fair, and of better quality than last year and some orchards are being harvested now. Some of the farmers are marketing okra, mustard, squash, turnip greens, and green onions, and things look better than they did a short time ago.

COSTLY LOSSES RESULT FROM "CHOKER"

Failure to keep cattle out of orchards, corn fields and gardens after the fall harvest may result in costly losses from the "choke," the American Foundation for Animal Health said today.

Foundation officials said that the "choke" was not uncommon in cattle because they naturally swallow food the first time without chewing it much. Ear corn, potatoes, cabbage, beets and apples were listed by the Foundation as common causes of the condition.

"Regardless of the cause, drooling and bloat may be the first symptoms when a cow is choking," the Foundation said. "Affected cows also often hold their heads low with necks stretched out, while coughing gasping, and open mouth breathing also are common indications of the problem."

Affected animals will make no attempt to eat or drink. Since similar symptoms may be shown also by cattle affected with rabies, bloat, bronchitis, wooden tongue and other diseases, an immediate diagnosis is necessary to determine the trouble, the Foundation said.

"Failure to obtain competent aid immediately may be costly," officials said, "because badly choked cattle are likely to die of bloat within a short time."

Veterinarians may use drugs to relax the throat muscles of the cow so that the offending object may be removed more easily. In other cases, instruments may be used to obtain relief. Sometimes surgery is needed in extreme emergencies to relieve the bloating, the Foundation said.

The Hoksioyopa Group of the Camp Fire girls went to Chapman's place on the Frio River last weekend. Included in the group were Charlotte Woods, Sue Cason, Dianne Dugleby, Katherine Marie Vincent, Glenetta Saathoff, LaNette Long, Peggy Cagle, their leaders, Mrs. Jack Dugleby, and Mrs. Everett Vincent, and Mrs. Robinson.

For some of the girls it was a real experience—their first over night camping trip, and they had a wonderful time. Among other things they went hiking and exploring, cooked their meals out-of-doors, using aluminum foil and hot rocks, had a treasure hunt, enjoyed singing around a huge camp fire Saturday night and had a very inspirational worship service Sunday morning.

NATALIA LIONS CLUB SPONSORS CITY BEAUTIFICATION PROJECT

By E. H. Whittington
NATALIA—The Natalia Lions Club took on a sidewalk cleaning and beautification project, and Wednesday afternoon found Lion President Ralph Brubeck leading his crew in the pick and shovel brigade, consisting of grocery store operators and clerks, rural carriers and post office clerks, druggists, farmers, builders, Kelly Field workers, and ministers. Weedcutters, axes, shovels, hoes, rakes, pitchforks were all put into use in clearing brush, cutting overhanging limbs, trimming palm trees, cutting weeds, and clearing dirt from low places

on the sidewalks, giving a new look to the portion of our little town covered before all hands became exhausted and went to the corner grocery for a soda.
If sore muscles, aching backs, and skinned shins are healed by next Wednesday the crew plans to do another block, and continue the work each week until the entire town gives the appearance of a place where people live and are proud of it.
Everyone who took part said they were glad they did, and many compliments have been coming from the local citizenry.

The Chamber of Commerce is a rushing business on deer this month. Went by to see WINNIE BRADEN about and met W. C. TISDALE McAllen who was scouting for a lease for two or three. He is a retired lawyer and Mrs. TISDALE spend most of their summers in Colorado. He stopped by the Anvil Herald office and left a freshly picked McAllen or for us. They were delicious, with such results from visits to the CofC, I'll probably haunt place from now on.

taking pics at the pottery was way of getting to know some interesting people. MIKE BALI (pronounced BAILEY) who is in charge of the Mold Shop says it's the only time he ever had difficulties over his name when he was in the third grade and a substitute teacher taken over for the day. She had each child his name and on when Mike handed in paper with "Mike Bali" on it, thought he was smarting out, made him stay in after school write "My name is Mike" 500 times. Any time he's ever used the "Bailey" was when he was the big car race go-round in Eastern Circuit. Reason: He wanted his parents to know what he was doing or they would stop him from his ex-acting work.

Texas Needs More Kick-Back On Federal Funds

More Federal Aid Is Needed In 1954

With members of Congress now home, there is a wonderful opportunity for you to tell your Congressman what you think should be done about the Federal apportionment for roads in 1954.

When Congress reconvenes in January, Texas members should be fully acquainted with Texas needs for a greater kick-back of Federal funds now being taken out of the state in both motor fuel and excise taxes.

TGRA is recommending at least two basic principles:

A. Greatly expanded funds for interstate and primary highways.

B. Maintain the present secondary (farm-to-market) program at the present level.

At the 83rd session of Congress the Dempsey Bill, which would have allocated additional funds for interstate highways, failed to get out of committee. The support it gathered through various committee hearings, however, was very encouraging.

The Federal Government now gets in excess of \$100 million annually in the motor fuel and excise taxes from Texas. The state gets back only one-third of the amount for highway work.

Never lose an opportunity to discuss this with your Chamber of Commerce highway committee or other interested groups.

"Pay As You Use" Favor Spreads

Texas has built one of the finest highway systems in the nation on a pay as you go basis. It now has a network that would cost some \$2½ billion to replace. At the same time, an expanding economy has pin-pointed the need of an equal amount for a more adequate system that is needed now.

Current revenues from the present 4 cent motor fuel tax and automobile license fees are being consumed mostly by maintenance work. There are insufficient funds for the expanded program now being demanded by practically every county in the state.

Somewhere along the line someone used the erroneous expression advocating "deficit financing." This expression immediately became unpopular because it denotes that the state is in debt and must be bailed out.

Through the years businessmen of Texas have advocated and have been able to maintain the pay as you go program of highway construction. Many of them are now saying that conditions have changed. They point to the expanded population, the vast increase of automobile and truck usage, and the general economy requirements of the state for needed highways.

In the several places in Texas where freeways already have been constructed, the earning capacity of those highways has far surpassed the original estimates. In recent months there has been a growing tendency in most states for a road building program that can be built by revenue bonds, financed by a slight increase in a dedicated motor fuel tax.

AN INVITATION WE SHOULD ALL ACCEPT—

LET'S VISIT OUR SCHOOLS

November 8-14 is American Education Week. It is an occasion for taking stock of our schools and sizing up how well they are doing their job of educating our children.

We're all invited to visit the schools and devote whatever time we can to getting better acquainted with the teachers, inspecting classrooms, and familiarizing ourselves with school problems, needs and plans for the future. The invitation isn't limited to parents. It includes all who have an interest in education.

The schools are playing an increasingly important role in preparing our children to grow up into well-rounded, responsible citizens. We need to know more about our schools, what they are doing and the problems they face, if we are to help the schools to discharge their responsibilities.

Let's visit the schools during American Education Week.

APPLICATIONS FOR NROTC EXAMS TO BE GIVEN AT TEST CENTERS

Approximately 2000 students will be selected for entry into the Naval Reserve Officers' Training Corps program for the 1954 Fall term of college.

The Navy has set a deadline date of November 21, 1953 for receipt of applications for the competitive examination. The examination will be conducted December 12, 1953 at test centers established throughout the nation.

Applications for the examination are available to male U. S. citizens who are high school seniors or graduates between the ages of 17 and 21. Applications may be obtained at any high school, college, or Navy Recruiting Station. Completed applications must reach the Educational Testing Service in Princeton, N. J., by November 21, 1953.

Successful candidates will participate in four years of college training as Midshipmen, USNR, and commissioned as officers in the Navy or Marine Corps upon graduation. While in college, Midshipmen's tuition, books and normal fees are paid by the Navy. In addition, Midshipmen are paid \$600 a year and provided with required uniforms. In addition to his courses in Naval Science during the school year, students take summer cruises to provide a practical working knowledge of the Navy. The Navy has NROTC units at 52 universities and colleges throughout the United States. Units in the Eighth Naval District are located at the University of New Mexico, Albuquerque; University of Texas, Austin; Rice Institute, Houston, Texas; Tulane University, New Orleans, La.; and University of Oklahoma, Norman.

REPEATING JOHN T. FLYNN'S

BROADCAST ON THE

BRICKER AMENDMENT

I would like to ask a question. See if you can answer it. As Congress rattled on to the end of its session, what was the most important question before it? The tax bill? The foreign aid bill? The appropriations bills? The government's military plans? The size of the air force? Increasing the national debt? These were certainly important issues. But here is my guess. The most important subject before Congress was the measure known as the Bricker Amendment—an amendment to the Constitution to re-define the power of the President in the matter of making treaties. Yet I am sure fewer people were concerned about this than about any of the other measures.

That is one of the troubles of big government. It gets so complex that no one can follow what it's doing unless he makes a steady job of it. We're constantly waking up to find that some law passed a couple of years ago almost without debate has gotten into our hair and gotten us into trouble.

The Bricker Amendment was bypassed so far as final action was concerned. I wonder how many people know what the Bricker Amendment is. First, let me describe very simply what it is aimed at.

Under the Constitution the laws concerning the United States as a federal society must be passed by Congress and signed by the President. No other body has a right to make such laws for the United States as a whole. The Constitution, however, provides that the right to make treaties between the United States and foreign countries is vested with the President of the United States but the treaty must be approved by two-thirds of the members of the Senate present and voting. Now that's quite all right. The authority thus given to the President has always been clearly understood. He could make treaties with England or France or China or any other country governing the relations between the United States and such countries. But no one ever dreamed that this power in the Constitution gave the President the right to sit down with the leaders of some other government and make a treaty which would invalidate and change the laws of the United States governing the people of the United States.

The President could make a treaty with England, let us say, defining the manner in which England and the United States would act together in connection with something touching the relations or communications between England and the United States. But no one ever supposed that the President could make a treaty with the British government which would change the criminal law in our states or in the United States or make any legislation by treaty which would affect the conduct, business or social life or political rights inside the United States of citizens of the United States.

However, we have in this country two groups of people who have decided to give the words of the Constitution entirely new meaning in the interest of these groups and their plans. One of these groups is made up of the extreme advocates of the United Nations and world government. The other group is made up of those people in America who are in favor of the United States and Great Britain forming a union—a super-government in which we would become part of a new sovereign state composing England, Canada, other countries in the British Empire and the United States. All of these are very important people. One of the advocates of Union Now, sometimes called the Atlantic Union, is Mr. John Foster Dulles, Secretary of State, and numerous members of the House and Senate, both Republicans and Democrats.

Now how does this affect our Constitution and the proposed Bricker Amendment? Well, the advocates of Atlantic Union or Union Now claim that the President of the United States can enter into a treaty with Great Britain to create a new sovereign state, of which we will be a part, which will have the right to make the laws not only governing the relations of these various countries but governing the internal conduct, rights, privileges, and duties of the people of the United States.

The advocates of the United Nations contend that the United States can enter into a treaty with the United Nations and all the countries involved in it to de-

fine the rights and duties of individual citizens of the United States. Now I call your attention to the fact that under our Constitution even the United States government cannot make laws controlling the conduct of citizens within a state. But it is now contended that the President of the United States can make a treaty with and through the United Nations governing our conduct in America which will become the supreme law of the land every place in the United States.

Up to now the people of the United States are governed by two sets of laws — one, by the laws of the states which under our Constitution cover 90% of their activities; and, two, by the laws of the United States which can only apply to the relationships of the citizens of one state to those of another state. There is a group in Congress — Republicans and Democrats — which supports the position that the President of the United States can by treaty with the United Nations enact another set of laws governing the conduct of our people. These laws would override laws passed by Congress and laws passed by the states. As a matter of fact, it is generally reported that the United Nations has prepared some 200 treaties governing the rights of citizens in the United States and every other country. These are not yet the law, but the plan is to submit them to the Senate for ratification and if the Senate ratifies them, they can alter the Constitution of the United States in practically any respect.

That is what the advocates of this plan are driving at. One group is aiming through treaty to tie the United States up into a super-government with the British Empire. The other group is trying to tie us up into a world government through the United Nations in which, in cooperation with the United Nations, our government can make any kind of law however it may violate the Constitution provided it is done by treaty and passed by the Senate.

I was appalled when I first became aware of this plan — I would call it a conspiracy. It was cooked up by the old New Deal-Fair Deal administrations. I was shocked beyond measure when I discovered that the new administration is actually involved in this thing. I do not think that since the beginning of the American Republic — including the Civil War — this country has faced a greater and more terrifying threat to its very fundamental institutions than in these two groups — so powerful in both parties — pushing to completely overthrow our traditional Constitutional system — one to mix us up in a world government and the other to tie us in with the fate of the British Empire.

Senator John Bricker of Ohio has introduced an amendment to the Constitution to deal with this. The amendment could be considered unnecessary if it were not for two things — one, because there is a crowd made up of leaders of both parties who believe they have the votes to defy the Constitution by torturing it into meanings never intended; and, two, because they probably believe they have a Supreme Court which will abet them in this raid on the American system. The Supreme Court has already almost completely altered the general structure of our government by giving new and hitherto unheard-of meanings to just a few words in the Constitution. We have had a revolution which might be called a judicial revolution.

A large element in the House and Senate — a clear majority, I am sure, are convinced that the United States is in grave peril and that the only way to protect it is to pass an amendment to the Constitution saying so clearly no one can doubt it just exactly what the Constitution means on this subject of treaties. What amazes me and frightens me is that the opposition to the Bricker Amendment is coming from the President of the United States and his Secretary of State John Foster Dulles.

The people of the United States had better wake up. There are strange things going on in Washington. They cannot be charged to either party. These dangerous plans are being carried on by a cabal made up of members of both parties and supported by powerful interests in the United States in both parties.

Fifteen Citizens Were Blood Donors Thursday

By Mrs. J. D. Schweers

DUNLAY — Upon hearing of
the need for blood donors, eight
women and seven men of the
Castroville Community motored
to Fort Sam Houston by army
bus Thursday morning, October
29. Each gave a pint of blood.
The need is still urgent and other
communities would be helping a
good cause if they would get
groups together for this purpose.

M&M Louis Mehr visited with
M&M Max Bippert at the Sauz
Saturday afternoon.

Stanley Jagge of Upper Quihi
visited his brother, Steriy, Satur-
day afternoon.

This community was deeply sad-
dened by the death of Claude
Boehme of Castroville.

Mrs. J. M. Horecka and son,
Forrest, and daughter, Barbara,
spent Monday with Mrs. Ben
Schoeliman at Hondo.

Many from here attended the
funeral of Claude Boehme Satur-
day and the All Saints and All
Souls Day services Sunday and
Monday at Castroville.

M&M Webster Haby and Brian
of SA spent Sunday with M&M
Louis Mehr.

Mrs. Allen Haby and Mrs. Har-
vey Haby had a few ladies in for
a quilting party Monday after-
noon.

Mrs. Elmer Biediger and Shelia
went Wednesday and Thursday
with her sister-in-law, Mrs. Louis
Schneider and children above
Castroville.

Those visiting Hubert Burger
last week at the Santa Rosa Hos-
pital besides his children, M&M
Rolf Saathoff and children, M&M
Jessie Burger and children, were
Mrs. Lizetta Burger, Melvin and
Stanley, M&M Robert Burger of

hi, Ernest Saathoff, M&M Alfred
Saathoff, M&M Ehme Saathoff,
M&M Oscar Mangold, M&M Mer-
rett of Tarpley, Mrs. Elsie Bur-
ger, Mrs. Bob Newton, Angeline
Burger of SA.

Mr. Burger returned to his home
near Tarpley Saturday, and he is
well on the way to recovery.

The J. M. Horecka family vis-
ited Sunday at Macdona with
friends.

Mrs. Emma Tschirhart of 3
Point spent Tuesday with her
son, Claude.

Mrs. Mille Jagge returned home
from spending several days at
George West with her daughter
and family, M&M Gus Houdman.
Little Lana accompanied her
grandmother home for a stay.

M&M Harvey Haby and sons,
Kenneth and Donald of SA, spent
the weekend with M&M Allen

WEATHER IN ENGLAND WONDERFUL

Mary Ann Noonan, former An-
vil Herald editor, writes from
England:
"I think I must have been
reading incorrect books for most
of my life as the weather here
in England is something unbeli-
evable. It's all sunny and
that good crisp kind of autumn
air. My room just overlooks the
channel and early in the morn-
ing I can see the fishing boats
heading out to sea. There are
two points here from where
you can see France on a clear
day.
"First I must tell you I've been
given a tiny black cat. I think
I shall name him Hondo. There's
a tremendous balcony outside my
room and he sort of looks over
the land from there. He's in my
lap right now. I've bought my-
self a "wireless" radio. The BBC
gives you the best programs in
the world. I can get the Voice
of America on it, and you can't
imagine how good those Ameri-
can accents sound! They broad-
cast from Wiesbaden. Near our
school we have a very good movie
house where we get the latest
and best American movies for
one shilling and six pence. That's
about 42 cents.
On Mondays I'm taking a lec-
ture course sponsored by Ox-
ford. The professor will be here
for ten weeks. The course is
about 20 hours, 2 hours each
Monday. Then I'm studying
Spanish—with a Castilian accent.
Instead of cinco (5), we say
think-o. The professor is quite
good. In between I am trying to
do some writing. I've been asked
to send in an article to The Cath-
olic Herald—for Sir Douglas Hyde-
de's column. He's an ex-commie,
you'll remember. It's possible
that after Christmas I'll enter the
University of London for a five-
week lecture course in journal-
ism. In that way I can become
better acquainted with London.
I've been invited to Oxford for
the holidays but have also been
invited to stay with a German
girl and her family in Bingen
near Wiesbaden. I met her at our
school in Paris and we've become
very good friends. Her father
owns the famous vineyards for
Rhine wines. I just had a letter
from them yesterday asking me
to come up so I shall probably
go up the day after Christmas.
She lives in a very beautiful part
of Germany, I hear. After London
I am planning on transferring to
our school in Rome. That will get
me out of England during the
worst part of the winter. The
school is right in the center of
Rome located next to the famous
Espelsion Hotel. I must tell you
we have just registered a little
American girl—8 years old!
She's quite a wonderful little
character—always salutes me
when she passes me. It's very
funny and very sweet. I've asked
to take her out one afternoon.
When she first arrived I was
simply besieged by the little ones
telling me there was an Ameri-
can here. In class her first day
the children all crowded around
and said that Diedre (the Ameri-
can) claimed to be a cousin of
Roy Rogers and was that so. I
told them it was quite possible
as I'm sure he has scores of rela-
tives. Well, you just should have

Macdona Club Has Last Shoot Of Season, Nov. 1

The Macdona Shooting Club
held its last shoot of the season
Sunday, November 1, before a
large crowd.

Mrs. Rose Biediger led the
field with a score of 368 for the
day and with a score of 731 for
the medal. She was followed by
Mrs. Laura Jackel, who has held
the rest medal for six months,
with a score of 716. The high
score in off-hand also went to
Mrs. Biediger with a score of
184 for the day, and 384 for the
medal. Mrs. Theresa Nentwich
was second with 183 and 380.

R. A. Biediger was first in rest
with a score of 367 and 725 for
the medal. L. Manade had 365,
but had a lead over Biediger with
7 points with a score of 732. Dave
Meckel is still in the ring with
720, and is the holder of the med-
al at the present time.

In off-hand, in the men's divi-
sion, Arno Loessberg, the holder
of the Club and Garrett medal,
made 208 for the day and 420
on the Club medal. Biediger was
an easy winner with 229 for the
Garrett medal, and a score of
453.

The Garrett medal for off-hand
shooting is won monthly but the
Club medal is given for the high-
est aggregate score of three
months. L. Manade is leading the
medal shoot with a score of 436
and at the first medal shoot in
1954, the winner will be decided.

seen the expression on Diedre's
face change. You must know
that they all want to know about
cowboys and Texas.

It is the romantic place on
earth to them and they're just
bug-eyed over the fact that I am
a real Texan. There's no telling
what they write home. By the
way, I've been invited to have
tea with John Warrington and his
mother. John Warrington is one
of the greatest English scholars
living today. He translates such
things as Caesar's account of his
wars from Latin to English, etc.
I'm really excited over it. I don't
know if I told you or not but
everybody—but everybody reads
The Anvil Herald! It is true
what all the fellows used to say
when they were in the service,
that you read every word, I do.
Last weekend I visited in Bun-
bridge Wells, a very famous res-
ort, and drank of the water that's
supposed to do all sorts of
magical things to you. Nothing
great has happened yet! I also
saw Rudyard Kipling's home and
drove past Brightling's Needle.
This is a tremendous concrete
structure in the shape of a need-
le, about 30 feet high, and it is
at such points that the English
used to build huge bonfires to
warn the countryside of the in-
vasion of Napoleon. These need-
les are all built at strategic places
where you can see for miles
and miles. We get the finest pro-
grams here in Hastings as we're
so near to London. The London
Philharmonic comes regularly
and last week I heard it with
Sir Adrian Bault conducting. Next
week Basil Cameron is guest con-
ductor.

As I get settled in and feel
more at home here, Hondo gets
closer and closer. At first I felt
as though I were a jillion miles
away and now you all seem very
near. I really love it here and the
English are great people. Loads
of fun, too. I've bought myself
books on the geology, scenery,
wild flowers, architecture, ballet
and birds of England. And I'm
really getting to know something
about it. Oh, I also have a map,
a travel book and guide - the
Oxford Travel Atlas of Britain.
It gives every town in England
with places to see, keyed to a
town map, information and his-
tory on the more important ones,
and hotels, parks, etc.

Hondo High Girls Observe FHA Week, Nov. 1

The Hondo Chapter of Future
Homemakers participated in the
national celebration of FHA
Week, November 1-8. A commit-
tee drew up a program for the
chapter's activities during this
week. The schedule ran as fol-
lows:

Sunday, Church Day
All FHA members attended
church. Pastors and priests were
asked to announce FHA Week.
Everyone tried to assist with a
church duty, such as singing in
the choir, or decorating the al-
tar. Others helped by bringing
friends to the Sunday services.

Monday, Publicity Day
The Hondo Chapter of the FHA
presented an assembly program
for the benefit of the student
body. They had the opening and
closing ritual of a regular FHA
business meeting as a demon-
stration and in place of regular
business discussion, they presented
the skit on safety which is going
to be given at the District meet-
ing in D'Hanis. The students en-
joyed it immensely and we have
hoped of it winning first place at
the District meet. During the en-
tire week there was a display in
the FHA window in the hall.
FHA'ers served coffee and coolies
to the Farm Bureau.

Tuesday, Family Job Day
Each FHA member took over
a duty at home that she does
not usually do, to relieve some
other member of the family, to
get a job done that no one else
wants to do, or one that others
in the family don't have time for.

Wednesday, Family Fun Day
All FHA'ers planned, with their
family, a night of fun together
doing such things as an evening
by the TV, a show, a party for
friends of the family, or just a
big family get-together.

Thursday, School Day
All faculty members were pre-
sented with a red rose, the flower
of our organization.

Friday, No Gripe Day
Any one caught griping was to
be fined one cent and the fines
were collected. Any FHA'er could
fine another FHA'er or a person
not in FHA. The only exception
made to this rule was that if we
lost to Carrizo Springs, no one
could be fined for a gripe. They
would have a right to it.

Saturday, FHA Day
Everyone who possibly could
attended the District I Meeting
at D'Hanis. The admission fee
was a Christmas card, unsigned,
and in an unaddressed, unsealed,
stamped envelope. These are to
be sent to the patients at the
State Mental Hospital.

Everyone had fun and the co-
operation between members, of-
ficers, and businessmen in town
made it a success. We are hop-
ing for an equally successful
FHA Week next year.

State Fair Auction Sales Great Success

Checks totaling \$111,169.08 have
been mailed to 687 Texas boys
and girls who participated in the
junior livestock and poultry auc-
tion sales at the 1953 State Fair
of Texas.

The checks represent \$92,711.
83 from the steer auction sale,
\$8,720.16 from the lamb sale,
\$6,587.68 from the junior market
turkey auction and \$3,149.41 from
the junior market broiler sale.

The steer auction checks went
to 270 boys and girls who put
up 270 fat steers in the sale Octo-
ber 23. The prices paid a pound
averaged 35.34 cents, including
the champions, and 33.77 cents a
pound excluding the champions.
In the fat lamb auction, 181
boys and girls put up 272 animal-
for sale, and the average price
a pound, including the champion
was 30.72 cents; excluding cham-
pions, 28.90 cents a pound.

Eighty-eight boys and girls sold
141 market turkeys in the action
sale on October 13. The average
price including the champions
was 96.75 cents; excluding cham-
pions, 71.75 cents a pound.

Total money received on red
and white ribbon turkeys was
\$3,038.04, with red toms going at
50c; red hens, 55c; white toms,
40c, and white hens, 45c a
pound, on the average.

In the broiler auction sale, 148
boys and girls sold 1,265 birds.
The auction sale of blues brought
\$1,554.50 and the sale of reds and
whites brought \$1,594.91.

The average price including the
champions at the broiler auction
was \$3.65 a bird; excluding cham-
pions, \$2.60. The average price
a pound brought by the red and
white ribbon birds was 6.
A total of 176 buyers participat-
ed in the auction sales.

Texas Livestock Prices May Dip Lower

Texas livestock producers face the coming winter with a forecast that cattle prices will remain low compared with a year ago during the next few months and may dip even lower.

Despite this outlook, says John G. McHaney, assistant extension economist, reduced cattle inventories should stabilize the market during the next few years.

Prices at Texas cattle markets dropped 56 percent between April 1951 and July 1953. At mid-year producers were receiving 82 percent of parity compared with 152 percent in April 1951, the all time high. Cattle prices are today more in line with other agricultural products than they were several months ago, McHaney says.

Favorable grain and roughage supplies caused the nation's producers to add about 4 million head to inventories during 1950. The following year price ceilings served as a stimulus for cattlemen to hold on to their beef animals and 5.5 million more animals were on farms by the end of 1951. That year cattle slaughter hit its lowest ebb in 10 years. Calf slaughter dropped to the lowest point in 18 years.

Record cattle numbers followed by the unprecedented drought has been responsible for increased marketings and, thus, lower prices paid to producers.

The weather holds a direct bearing on the price outlook in the future, McHaney says. With the exception of seasonal fluctuations, the market should level off and prices should become more stabilized unless drought conditions and other weather factors necessitate expedited marketing, he points out.

If the demand for beef weakens, cattle prices will further decline. Also, concludes McHaney, any downward trend in pork and lamb prices in the years ahead will lower cattle prices.

Victorgrain Oats Leads Production Tests

Victorgrain oats, New Nortex oats and Abruzzi rye produced over five tons of air-dry forage an acre to lead a variety test of ten small grains at the Winter Garden Experiment Station.

The tests were conducted to determine effects of variety, seeding rates and fertilizers on forage production and were made during the fall and winter, 1952-1953.

With an application of 200 pounds of nitrogen and 120 pounds of phosphoric acid per acre, Victorgrain and New Nortex oats and Abruzzi rye produced a total of 10,490, 10,140 and 10,050 pounds of forage per acre, respectively, on irrigated crystal fine soils. The forages were clipped three times between January 2 and March 18.

Other varieties, grown in the test under similar conditions, were Mustang oats 7,510, Goliad barley 6,970 and Wimmera rye-grass 6,240 pounds an acre.

In seeding tests, Mustang oats planted at the rate of 1 1/2 bushels to the acre produced 9,540 pounds of air-dry forage per acre. A three bushel seeding rate upped the yield to 10,090 pounds.

Nitrogen applications of 60 and 120 pounds per acre showed the only substantial increase in forage. Higher rates of nitrogen and phosphorus were no better than nitrogen alone. Phosphate did not increase yields. Potash in combination with nitrogen and phosphate did not influence growth. One-hundred twenty pounds of nitrogen per acre boosted forage yields from 4,180 to 7,920 pounds.

Results of the studies are reported in Progress Report 1598, Small Grain Forage Tests At The Winter Garden Station, 1952-1953, and is available from the Agricultural Information Office, College Station, Texas.

LIQUOR BOARD REVENUE INCREASES

AUSTIN—Revenue to the Texas Liquor Control Board increased greatly for the month of September.

That is the time when annual liquor permit fees are counted. The total for September was \$2,624,307 as against \$1,532,101.99 for August.

For September a year ago the figure \$2,501,530.67.

The Board's monthly review showed that agents filed 278 cases for liquor law violations. Court action resulted in 225 convictions and 37 jail terms, with 23 cases dismissed and 8 acquittals. Fines and costs amounted to \$44,426.70.

The Board's auditing division checked \$1,646,218 in tax-paid and tax-due revenue in September. There were 61 audits of 8 types of accounts. Delinquent tax collections came to \$256.52.

Inspectors seized five illicit stills, captured 380 gallons of mash and arrested one person on a moonshining charge. Two gallons of moonshine liquor were destroyed.

One still was taken in each of these counties: Harrison, Titus, Grayson, Limestone, and Freestone.

THIS TEAM WORKS FOR YOU

The United Gas "team" is working for you and thousands of your neighbors in the Gulf South... working around the clock to assure you a dependable supply of natural gas.

One member of the team is Union Producing Company... whose skilled personnel are developing known gas fields and searching for new ones. A second member of the team is United Gas Pipe Line Company... operating some 8,000 miles of pipe lines to transport natural gas from fields to markets.

Third member of the team is United Gas Corporation's Distribution Division... the local gas company in more than 250 cities and towns.

When you consider the tremendous investments made by United Gas, and by hundreds of other companies in the gas industry, to assure adequate supplies of natural gas, we think you will agree your gas service is worth every cent you pay for it... and then some.

Duck Prospects Seem Favorable, Nov. 6

AUSTIN — Thanks to recent rains a fairly good distribution of duck and goose flights over Texas appears likely, according to the Executive Secretary of the Game and Fish Commission.

He made this observation in sizing up prospects for the opening of the fall waterfowl harvest in Texas at noon Friday, November 6.

The main movement of ducks and geese is naturally toward the Gulf Coast areas, the Executive Secretary said, but the filling of reservoirs and tanks, and general restoration of water areas will help scatter the concentration and thus provide more sport for Texans.

Reports from the Gulf Coast show that the recent rains broke a long dry spell and brought water to the Coastal Plains where some of the game seek food after the Gulf marshes are stripped of edible growth.

Hunters are advised by the Executive Secretary to check with their local warden as they are uncertain about provisions of the water fowl regulations.

SECO PHILOSOPHER HITS ON Novel Plan To Solve The Plight Of Busted Cattlemen In This Country

Editor's note: The Seco Philosopher on his Johnson grass farm has a bright idea this week on the cattle situation. There's a flaw in it somewhere, but we haven't got time to figure it out. Dear editor:

Everybody these days is worryin' about the price of cattle, it's sort of a depressing thing, not only on the cattlemen but on everybody else, as a non-cattlemen gets to thinkin' about what has happened to the cattlemen and he gets to figurin' it could happen to him too and he starts clampin' down on his spendin' and before you know it business has begun to drag its feet.

Now I have been thinkin'. There's not much anybody can do about the price of cattle, except deplore it, and cattlemen have already tried that and it doesn't help much.

On the other hand, lots of people have been figurin' out how maybe the government can buy high feed and sell it cheap to the cattlemen, just to keep them in business, but to a man that's out of money, there just ain't no such thing as cheap feed. When you're broke, a bowl of chili is about as far out of your reach as a steak.

Therefore, I have hit on a plan. Of course nobody wants the government to go any further in the hand-out business, nobody is askin' the government to buy up all the cattle and go in the ranchin' business, and nobody has figured out how the latter can be avoided if price supports are established. Also, the government is already too far in on the money-loanin' business.

Now my plan is to let the government go into the hay-loanin' business. Instead of loanin' me money to keep my cows alive this winter, why can't the government just loan me some hay?

After the government loans me the hay, I will know what to do with it, and after my cows make it through the winter, maybe

enough of em will have passed on which, multiplied by the losses among all the other herds throughout the country, plus the extra meat Sec. Benson wants everybody to eat this year, will bring the price of cattle back up to where it belongs.

Me and the rest of the cattle

men will then owe the government some hay. Just when we can pay it back is hard to say, but so long as the mortgage is against the hay only, the situation won't get out of hand, and I can't see why it wouldn't be just as well for the government to show a hay deficit as a dollar deficit.

The first year we have plenty of rain and everybody has more hay than he knows what to do with, we could all pay the government back, and the government could then store the hay against the next drouth. I don't know how long it'll keep, but I know it'll keep better than butter, and the government's been storin' that for years.

Yours faithfully,
 J. A.

Larry Wright Nominated For Gaillardian Escort

SAN MARCOS—Larry Wright of Hondo is among students who have been nominated for the position Gaillardian or Gaillardian escort, traditional name for campus favorites at Southwest Texas State Teachers College.

Gaillardians and escorts are chosen each year by vote of the student body prior to Homecoming. Twenty-eight clubs have picked favorites to compete for the honor of being one of the twelve persons chosen.

Identity of winners is kept secret until the night of the Homecoming dance, which will be held this year on Saturday, November 7. At that time the campus favorites are presented to the Homecoming crowd.

Mr. Wright was nominated by Harris Hall.

Owls Threw The Cowboys 13-6, Friday

By Paul Holliday

The Hondo Owls received the opening kickoff from the Cotulla Cowboys and on short runs moved to the Cotulla 20 yard line. Johnny Morin and Monte Williams made most of the yardage. Cotulla took over the ball on downs and being unable to move punted out to Hondo's end of the field. With Williams and Morin carrying the ball, Hondo moved to 2 first downs before having to punt. Cotulla again was unable to move and punted to the Owls. Eight plays and 3 first downs later the Owls were on the Cotulla 5 yard line. Morin hit the center of the line for 2 yards as the quarter ended.

Second Quarter

Johnny Morin made the first Owl touchdown on a 3 yard plunge over his right guard. Morin kicked the extra point.

Morin kicked off to the Cotulla 15 yard line and the ball was returned to the 34 yard line. Cotulla was unable to gain and punted to the Hondo 36. On the first play Alderete ran over guard for 3 yards. Morin carried the ball around end for 2 yards and then he went over the middle for 1 yard. Glenn Schweers punted to the Cowboys 18, but the kick was returned to the 36. Again Cotulla was unable to gain through the Hondo defense and had to punt. (See OWLS, Page 8A)

You're in the driver's seat
for less than you think

It's your money, of course—but we'd like to see you make the most of it.

That's why we want to show you the price of the big Buick SPECIAL illustrated here—to make Point #1: you can buy this great performer for just a few dollars more than the "low-price three."

But Point #2—the smart point—is this:

When you put up those few extra dollars for the Buick pictured here, you're in the driver's seat of a lot more automobile.

You boss extra power — more satisfying power — walloping Buick Fireball 8 power — highest ever found in a Buick SPECIAL.

You get extra room—a lot more comfortable room—real, man-sized, 6-passenger room—as much room as you get in cars costing hundreds of dollars more.

You enjoy extra satisfaction—more solid satisfaction—in the ride of this big, broad, road-steady traveler that's cushioned by coil springs on all four

wheels, and engineered with all the other costly features of the Million Dollar Ride.

And, speaking of extras—here you get, at no extra cost, a long list of standard equipment that most other cars at or near the price of this Buick charge you for, as "extras" on the bill of sale.

So, as we said—it's your money—and it's your move.

If you're aiming for the driver's seat of a hard-to-beat buy—for a lot less than you think—come in and see us soon.

HONDO OWLS

(Continued From Page 5A)

The ball went out of bounds on the Hondo 30. Morin made 3 yards over tackle. Alderete lost 2 yards on a reverse. Morin circled end for 8 yards. Morin then got 5 yards and an Owl first down to the Hondo 44 yard line. Monte Williams lost 2 yards then Morin passed to Billy Neuman for 12 yards and another first down for the Owls on Cotulla 44 yard line. Morin ran off tackle for 8 yards, but Woolfs carried the ball over center for 6 yards, and a first down for the Owls on the Cotulla 30 yard line. Morin made 4 yards over guard. Glenn Schweers' pass was incomplete. Schweers pass to Alderete was good for 22 yards. With first down and goal to go on the Cotulla 4 yard line, Johnny Morin got 2 yards over his right tackle. The half ended before another play could be run. The score was Hondo 7, Cotulla 0.

Third Quarter

To start the second half, Johnny Morin kicked off to the Cotulla 15. The ball was returned to the 37. After 2 incomplete passes and a running play failed to gain first down yardage, Cotulla punted to the Hondo 27 yard line. Monte Williams returned the ball 6 yards to the 33. Woolfs made a yard over guard. Williams recovered his own fumble for a loss of 1 yard. Morin threw an incomplete pass. Schweers punted to the Cotulla 31. The ball was returned 10 yards. The Cowboys made a first down when they sprung a man around end for a 25 yard gain. The ball was on the Hondo 34 yard line.

The hard charging Hondo line rushed the Cotulla passer and batted the ball up in the air. Elroy Lindeburg intercepted the pass for Hondo and ran it back to the Owls 35 yard line. Monte Williams made 4 yards over center. The Owls were penalized 15 yards for illegal use of the hands on offense. This put the Owls back on their own 21 yard line. On the next play Glenn Schweers' quick kick was partially blocked and gained only 11 yards to the Hondo 32 yard line. From there Cotulla started for their only score. A pitchout around end gained 14 yards. Another pitchout gained 12 more yards. This made it first down and goal to go on the Hondo 5 yard line. An end run gained 4 yards and the score was made on a quarter back sneak on the next play. The try for the extra point was wide. The score was now 7 to 6, Hondo leading.

Monte Williams received the kickoff on the Hondo 15 and ran it back 21 yards. Morin made 3 yards over right tackle. Butch Woolfs was stopped for no gain. Schweers made 46 yards and first down on the Cotulla 15. Morin made 1 yard over center; circled end for 5 yards and then ran over center for 1 yard. Cotulla was penalized 5 yards for being off side. This put the ball on the Cotulla 3 yard line from where Morin scored on the next play. Morin's try for the extra point was wide.

Morin kicked off to the Cotulla 25, where the ball was fumbled and recovered by the Cowboys. On the first play, the ball was fumbled again but Clyde Schulte of the Owls recovered this time. Morin gained 3 yards on a run off tackle and was stopped for no gain on the next play. Glenn Schweers threw an incomplete pass as the third quarter ended.

Fourth Quarter

On the first play of the last quarter, Glenn Schweers went back for a pass and was dropped for a 4 yard loss. Cotulla took over the ball on downs and bunched 3 running plays for a first down to their own 36 yard line. The Cowboys were unable to make another first down and punted out of bounds on the Hondo 43 yard line.

Butch Woolfs made 5 yards over tackle. Schweers made 3 yards on a "keep it" play and Morin made 2 for the first down. Morin made 6 yards over tackle and then 4 yards over center for another first down. Hondo was penalized 5 yards for being off side. Morin's pass was intercepted on the Cotulla 35 yard line. The Cowboys were unable to gain a first down and punted to the Owls' 25. Monte Williams returned the punt 13 yards. Morin carried the ball over center for 2 yards. Morin again went over center for 5 yards, and then picked up 2 more yards on an end run. Morin ran over his right tackle for 3 yards and an Owl first down. Morin circled end for 6 yards and Cotulla was penalized 5 for off side. Woolfs carried the ball for 6 yards over center and on the final play of the game Morin pitched up 2 yards around end. The final score: Hondo Owls 13, Cotulla Cowboys 6.

In district play the Owls have now won one game and lost one.
